APEX®
An OHI Company

Foot Health and Wellness

2020 Product Catalog

Apex Foot Health Industries was founded upon one mission: to be the industry leader in designing and manufacturing the highest quality footwear and to extend patient outcomes and improve lives.

For more than 50 years, our meticulous fabrication process has only improved, leading every footwear style to share the same strand of DNA, which must include the following characteristics:

Superior Quality, Construction, Adjustability, Fit, Functionality and Protection

Our footwear must meet the gold-standards that continue to make Apex the trusted brand of choice for you and your patients, over generations.

With trust comes responsibility and a steadfast dedication to explore and invest in the latest research, development, design features, materials, construction and manufacturing technologies.

Improving quality and consistency is only possible with the feedback from our loyal customers. It is these partnerships that help us strengthen the DNA of our products through a mutual endeavor to provide better quality care, comfort and relief for more people.

Thank you for being a valued customer and for helping Apex continue to fulfill our mission.

WOMEN'S FOOTWEAR

Apex Active footwear is designed to prevent injuries and provide quick, comfortable relief from pain and discomfort to help your patients lead a healthy and active lifestyle.

Padded Collar & Tongue

Provides cushioned comfort and prevents heel slippage

Biomechanical Footbed

Contoured EVA insole provides support, cushioning and shock absorption

Customization

The added EVA insole allows you to easily customize the comfort and fit of the shoe by trimming the insole at the areas of pressure. The insole may also be fully removed for additional depth.

Molded External Heel Counter

For supported rearfoot control

Triple Density Sculpted Midsole

Designed to preserve balance between your body and ground forces

Women's ACTIVE

Apex Women's active footwear styles are constructed to offer midfoot and rearfoot stability, pressure relief to the calcaneus, and shock attenuation for the foot and musculoskeletal system. The multiple removable layers, soft linings and wide last design offer protection, fitting flexibility, and the accommodation of orthotics and shoe modifications. Often recommended for people with diabetes, arthritis or anyone seeking shoes for maximum comfort.

Apex slip-resistant footwear

The Petals collection includes fashionable designs for every occasion. The slip-resistant soles made from injected EVA ensure the shoes deliver the necessary safety and protection your patients require without the added weight.

- Firm heel counters for stability & control
- New slip-resistant rubber outsole for traction & stability

Indicates shoe features a slip-resistant sole

This footwear exceeds SATRA and Mark II slip resistant standards for dry, wet and oily surfaces

Casual / Dress
BIOMECHANICAL®
Collection B

Designed by a team of doctors and pedorthists to provide superior comfort and protection for those with diabetes, arthritis or painful foot conditions

Customization
The added EVA insole allows you to easily customize the comfort and fit of the shoe by trimming the insole at the areas of pressure. The insole may also be fully removed for additional depth.

Cushioning
Removable orthotics and polyurethane outsoles absorb shock forces and provide cushioning

Depth
3 removable insoles provide a 1/2" of removable depth for maximum protection and fitting flexibility

Stability
Hidden depth sole design with raised sidewalls and firm heel counters

Dual Polyurethane Midsole & Outsole Unit
For stability & durability

Protection
High, wide toe boxes and soft, safe linings help protect the foot from injury

Fit
Straight last design, with multiple removable insoles ensure a proper fit for all foot types

THE STATISTICS ARE OVERWHELMING!

Be a Part of the Solution!

Falls among our senior population is a little-known secret in healthcare. Most people who are having balance problems believe that falling is just a part of getting older. They keep it secret from family, friends and doctors for fear of losing their independence. Then they have a really bad fall and break their hip...or worse.

- **One in three Americans aged 65 or older falls each year**
- **Every 11 seconds, an older adult is treated in the emergency room for a fall**
- **Every 19 minutes, an older adult dies from a fall**
- **Falls are the leading cause of death from injury among Americans age 65 or older**

ASK ABOUT OUR FALLS RISK MANAGEMENT PROGRAM FOR YOUR PRACTICE

(You may qualify for a complimentary listing on **myfallrisk.com**)

BALANCE FOOTWEAR

The Moore Balance Shoe (MBS) is the first-ever footwear scientifically designed to reduce one's risk of falling.

Features of the Moore Balance Shoe include:

- 5/16" removable depth in two layers for fitting flexibility
- Firm, adjustable heel counter with hook and loop strap closure (AFO compatable)
- Moisture-wicking polyester, antimicrobial mesh lining
- Extended tongue opening for easy AFO fit (AFO feature)
- Stretchable, breathable forefoot material
- Textured footbed provides proprioceptive sensory feedback for polyneuropathy
- Firm, supportive midsole
- Slip-resistant rubber outsole
- Soft padded collars
- Meets standards for coverage under Medicare's Diabetic Shoe Program
