ASICS CANADA CATALOG

PERFORMANCE RUN
V6

A woman with two long braids is running away from the camera on a paved path in a park. She is wearing a white sports bra and pink leggings. The path curves to the left, and there are green bushes and trees in the background. The lighting suggests it's a sunny day.

SOUND MIND, SOUND BODY™

At ASICS, we believe in the positive impact of sport on the mind. Take our name, an acronym for Anima Sana in Corpore Sano or “a sound mind in a sound body.” Our founding philosophy is perhaps more relevant than ever and we’re recommitting to promoting the positive, uplifting power of sport.

GEL-NIMBUS™ 25

GEL-NIMBUS® 25

The GEL-NIMBUS® 25 shoe's soft cushioning properties help you feel like you're landing on clouds. This neutral trainer is revamped with new materials that create a softer and smoother running experience. A soft knit upper comfortably wraps your foot while supplying advanced ventilation. Its updated knit tongue construction provides better flexibility and extends around the ankle for a more luxurious fit and feel. The midsole is packed with the most cushioning that the series has offered to date. By adding more FF BLAST™ PLUS cushioning and using our new PureGEL® technology, this trainer creates a lighter and softer cushioning experience.

FEATURES

- Knit upper wraps the foot with a soft feel while improving breathability
- PureGEL® technology improves impact absorption and creates a softer feeling at footstrike
- FF BLAST™ PLUS cushioning creates a softer landing and a more responsive toe-off
- OrthoLite™ X-55 sockliner improves step-in comfort
- Reflective details improve visibility in low-light conditions
- The shoe's upper is made with recycled materials to reduce waste and carbon emissions
- ASICS LITE rubber is lighter, stronger, and more sustainable than standard outsole rubbers
- AHAR® outsole rubber improves durability

PURE GEL

BLAST+

SOFT & SMOOTH VERSATILITY

GEL-CUMULUS™ 25

GEL-CUMULUS® 25

Experience a softer feel underfoot with the GEL-CUMULUS® 25 shoe. This neutral everyday trainer is a versatile choice for various running workouts and distances. We've updated the midsole with our new PURE GEL® technology and FF BLAST™ PLUS cushioning. These materials help create softer landings and a more energized toe-off during your training. Only key wear zones of the tread pattern include outsole rubber. This application helps keep the shoe lightweight while producing a smoother roll from footstrike to toe-off.

FEATURES

- FF BLAST™ PLUS cushioning provides lightweight impact absorption and a responsive rebound
- PURE GEL® technology helps provide lightweight cushioning and softer landings
- Engineered mesh upper improves breathability
- Reflective accents improve visibility in low-light conditions
- FLYTEFOAM™ cushioning provides lightweight impact absorption
- The shoe's upper is made with approx. 90% recycled materials to reduce waste and carbon emissions
- OrthoLite™ X-30 sockliner provides soft step-in comfort
- Full-ground contact design creates a smoother and more efficient ride
- AHAR® outsole rubber improves durability

GEL-CUMULUS® 24

The GEL-CUMULUS® 24 shoe is a versatile everyday trainer for various runners covering different distances. From the upper to the foam underfoot, this shoe feels softer and more responsive. To improve comfort, the upper features an improved heel fit. Meanwhile, the engineered mesh improves breathability to keep your feet cool throughout your run. This smooth distance trainer is also updated with our FF BLAST™ cushioning. It helps create a softer landing and a more responsive toe-off.

FEATURES

- FF BLAST™ cushioning creates lightweight impact absorption and a responsive energy return
- Rearfoot and forefoot GEL® technology improves impact absorption and creates a softer feeling at footstrike
- Gender-specific 3D SPACE CONSTRUCTION™ feature addresses different compression rates
- Engineered mesh upper improves breathability
- Reflective accents improve visibility in low-light conditions
- FLYTEFOAM™ cushioning provides lightweight impact absorption
- The shoe's upper is made with recycled materials to reduce waste and carbon emissions
- OrthoLite™ X-30 sockliner provides soft step-in comfort
- Full-ground contact design creates a smoother and more efficient ride

GEL-CUMULUS® 24 GTX

The GEL-CUMULUS® 24 GTX shoe is a versatile everyday trainer for various runners covering different distances. From the upper to the foam underfoot, this shoe feels softer and more responsive. With GORE-TEX™ panelling on the upper, this shoe helps prevent rain and snow from entering the shoe's interior. To improve comfort, the upper features an improved heel fit. Meanwhile, the engineered mesh improves breathability to keep your feet cool throughout your run.

This smooth distance trainer is also updated with our FLYTEFOAM™ BLAST cushioning. It keeps the shoe lightweight while creating a softer touchdown and a more energized toe-off.

FEATURES

- GORE-TEX™ membrane helps prevent rain and snow from entering the shoe's interior
- FLYTEFOAM™ BLAST cushioning creates lightweight impact absorption and a responsive energy return
- At least 75% of the shoe's main upper material is made with recycled materials to reduce waste and carbon emissions
- Rearfoot and forefoot GEL® technology improves impact absorption and creates a softer feeling at footstrike
- Gender-specific 3D SPACE CONSTRUCTION™ feature addresses different compression rates
- Engineered mesh upper improves breathability
- Reflective accents improve visibility in low-light conditions

- FLYTEFOAM™ cushioning provides lightweight impact absorption
- Reflective details help improve visibility in low-light settings
- OrthoLite™ X-30 sockliner provides soft step-in comfort
- Full-ground contact design creates a smoother and more efficient ride
- AHARPLUS™ heel plug improves durability
- The sockliner is produced with the solution dyeing process that reduces water usage by approximately 33% and carbon emissions by approximately 45% compared to the conventional dyeing technology

GEL-KAYANO® 29

The GEL-KAYANO® 29 shoe creates a stable running experience and a more responsive feel underfoot. Featuring a low-profile external heel counter, this piece comfortably cradles your foot with advanced rearfoot support. We also updated the midsole with FF BLAST™ PLUS cushioning. This helps keep the shoe lightweight while creating a more energized rebound in each step. A LITETRUSST™ stability feature is placed on the midsole's inside angle. It's designed to help keep your foot from rolling too far inward during your stride.

FEATURES

- Engineered knit upper improves breathability
- Redesigned external heel counter helps keep the foot stable and provide a more comfortable stride
- LITETRUSST™ technology improves medial support and midfoot integrity
- 3D SPACE CONSTRUCTION™ feature improves compression at footstrike
- Rearfoot GEL® technology cushioning provides good shock absorption
- FF BLAST™ PLUS cushioning provides lightweight impact absorption and a responsive rebound
- OrthoLite™ X-55 sockliner improves comfort
- Reflective details improve visibility
- AHARPLUS™ heel plug improves the outsole durability
- At least 50% of the shoe's main upper material is made with recycled materials to reduce waste and carbon emissions
- The sockliner is produced with the solution dyeing process that reduces water usage by approximately 33% and carbon emissions by approximately 45% compared to the conventional dyeing technology

GEL-KAYANO® 29

The GEL-KAYANO® 29 shoe creates a stable running experience and a more responsive feel underfoot. Featuring a low-profile external heel counter, this piece comfortably cradles your foot with advanced rearfoot support. We also updated the midsole with FF BLAST™ PLUS cushioning. This helps keep the shoe lightweight while creating a more energized rebound in each step. A LITETRUSST™ stability feature is placed on the midsole's inside angle. It's designed to help keep your foot from rolling too far inward during your stride.

FEATURES

- Engineered knit upper improves breathability
- Redesigned external heel counter helps keep the foot stable and provide a more comfortable stride
- LITETRUSST™ technology improves medial support and midfoot integrity
- 3D SPACE CONSTRUCTION™ feature improves compression at footstrike
- Rearfoot GEL® technology cushioning provides good shock absorption
- FF BLAST™ PLUS cushioning provides lightweight impact absorption and a responsive rebound
- OrthoLite™ X-55 sockliner improves comfort
- Reflective details improve visibility
- AHARPLUS™ heel plug improves the outsole durability
- At least 50% of the shoe's main upper material is made with recycled materials to reduce waste and carbon emissions
- The sockliner is produced with the solution dyeing process that reduces water usage by approximately 33% and carbon emissions by approximately 45% compared to the conventional dyeing technology

FF BLAST

LITE TRUSS

GEL-KAYANO® LITE INSPIRATION

GT-2000™ 11

GT-2000® 11

The GT-2000® 11 shoe is a versatile stability trainer that's functional for various distances. We've updated the underfoot cushioning to make it feel more comfortable and energetic. Key adjustments in the midsole include our FF BLAST™ cushioning. This soft material helps promote softer landings and a responsive rebound. LITETRUSST™ technology is positioned on the inside of the midsole to improve stability. It helps prevent your foot from rolling too far inward, setting you up for a smoother stride. The midsole and outsole designs have also been reconfigured to produce a trampoline effect at toe-off. As a result, you'll experience a more energized ride that helps propel you towards a new personal best.

FEATURES

Jacquard mesh upper offers a supportive and comfortable foothold
The upper's main material is designed with approx. 30% recycled polyester
The sockliner's sustainable dyeing process helps reduce overall water usage by approx. 33% and carbon emissions by approx. 45%
Rearfoot and forefoot GEL® technology cushioning provides excellent shock absorption
FF BLAST™ technology provides lightweight cushioning and a responsive rebound
LITETRUSST™ technology improves medial support and midfoot integrity
OrthoLite™ X-30 sockliner provides soft step-in comfort"

GT-1000® 11

Our key focus for the GT-1000® 11 shoe was to make it softer and smoother. Designed for an active lifestyle, this shoe is functional for running or wearing to the gym. FLYTEFOAM™ cushioning in the midsole is tuned with a lower density than the previous version. Teamed with GEL® technology, this combination creates softer landings and smoother transitions. LITETRUSST™ technology is placed on the midsole's inside angle to reduce pronation. It helps produce a more supportive stride while keeping overpronation at bay.

FEATURES

- Engineered mesh upper improves breathability and wraps the foot with a soft feel
- External heel counter improves the fit and helps increase stability
- LITETRUSST™ technology improves medial support and midfoot integrity
- FLYTEFOAM™ cushioning provides lightweight impact absorption
- Rearfoot GEL® technology improves impact absorption and creates a softer feeling at footstrike
- ORTHOLITE™ X-30 sockliner provides soft step-in comfort

BLAST BEYOND SERIES™

FOOTWEAR

GEL-KINSEI® BLAST LE 2

The GEL-KINSEI® Blast LE 2 shoes are designed for distance runners seeking a smooth stride. Our focus for this trim level approach was to make this design look as good in the streets as it does on race day. Influenced by technical performance, the upper's Nexkin mesh material evolves the design with improved ventilation to help your feet keep cool. An arrangement of GEL® technology and FF BLAST™ cushioning create a soft yet responsive step. After easing into the landing phase, the shoe propels you forward with a smooth transition. The midsole's shape is inspired by a samurai's curvaceous katana sword. With a Pebax plate in the center, this feature redirects your movement forward and gives your run a faster feel.

FEATURES

- Nexkin mesh upper improves airflow to help your feet keep cool
- Pebax propulsion plate helps redirect the runner's energy forward and create a faster feel
- FF BLAST™ cushioning provides lightweight impact absorption and a responsive rebound
- FF BLAST™ PLUS cushioning generates lightweight impact absorption and good durability
- Rearfoot and forefoot GEL® technology improves impact absorption and creates a softer feeling at footstrike
- Strategic outsole engineering improves grip and durability

NOVABLAST™ 3 LE

Our focus for the NOVABLAST™ 3 LE running shoe was to make it lighter and more comfortable. The intention for this trim level approach was to make it look as good in the streets as it does on race day. Influenced by technical performance, the upper's Nexkin mesh material evolves the design with improved ventilation to help your feet keep cool. A tongue wing construction in the upper helps improve the fit while reducing tongue movement. This component is reinforced with a more supportive heel design to help guide the foot with more control through your gait cycle. Meanwhile, the midsole's FF BLAST™ Plus cushioning helps create a lighter and more responsive feel underfoot.

FEATURES

- Gusseted tongue helps provide a supportive and comfortable foothold
- The upper's main material is designed with approx. 30% recycled polyester
- The sockliner's sustainable dyeing process helps reduce overall water usage by approx. 33% and carbon emissions by approx. 45%
- Rearfoot and forefoot GEL® technology improves impact absorption and creates a softer feeling at footstrike
- FF BLAST™ technology provides lightweight cushioning and a responsive rebound
- LITETRUSST™ technology improves medial support and midfoot integrity
- OrthoLite™ X-30 sockliner provides soft step-in comfort

NOVABLAST™ 3

The NOVABLAST™ 3 running shoe draws inspiration from a geometric origami feature for the upper and midsole. After making the shoe approx. 30g lighter than the previous version, we also equipped this style with improved comfort. A tongue wing construction in the upper helps improve the fit while reducing tongue movement. This component is reinforced with a more supportive heel design to help guide the foot with more control through your gait cycle. Meanwhile, the midsole's FF BLAST™ PLUS cushioning helps create a lighter and more responsive feel underfoot.

FEATURES

- Jacquard mesh upper provides good comfort and support while keeping feet cool
- The heel stabilizer helps support the foot and create a more balanced stride
- Gusseted tongue wing fit system improves the midfoot fit and reduces tongue sliding
- FF BLAST™ PLUS cushioning provides lightweight impact absorption and a responsive rebound
- Trampoline-inspired outsole design provides a more responsive bounce back
- AHAR® outsole improves durability
- At least 75% of the shoe's main upper material is made with recycled materials to reduce waste and carbon emissions
- The sockliner is produced with the solution dyeing process that reduces water usage by approximately 33% and carbon emissions by approximately 45% compared to the conventional dyeing technology
- Reflective details help improve visibility in low-light settings

DYNABLAST™ 3

The DYNABLAST™ 3 shoe is designed for the fitness enthusiast seeking a comfortable offering for their run or training routine. A soft, engineered knit improves the shoe's fit, comfort, and breathability. This material is also reinforced with a notched tongue construction that helps reduce pressure points over the in-step. The FLYTEFOAM™ BLAST cushioning's energized softness provides a trampoline effect as you run. It helps create a smooth yet responsive feeling underfoot.

FEATURES

- Engineered knit upper improves breathability
- FLYTEFOAM™ BLAST technology provides lightweight cushioning and a responsive rebound
- Underfoot cutouts provide excellent bounce
- OrthoLite™ X-30 sockliner provides soft step-in comfort
- AHARPLUS™ outsole rubber improves durability
- At least 50% of the shoe's main upper material is made with recycled materials to reduce waste and carbon emissions
- The sockliner is produced with the solution dyeing process that reduces water usage by approximately 33% and carbon emissions by approximately 45% compared to the conventional dyeing technology

VERSABLAST™ 2

The VERSABLAST™ 2 shoe is a versatile training partner for varied workouts and running regimens. Inspired by our NOVABLAST™ shoe series, we wanted to make this shoe softer and lighter. It's designed to provide good comfort for a range of activities. By focusing on the shoe's energy return, we created a more responsive rebound for a fast feel underfoot.

FEATURES

- Breathable mesh upper
- Heel pull tabs make this shoe easier to take on and off
- Midsole foam provides soft cushioning with a responsive rebound
- Half-bootie heel collar design

COMPETE

FOOTWEAR

MAGIC SPEED™ 2

The MAGIC SPEED™ 2 shoe offers the energy you need to move towards a new personal best. We updated the fit and tooling to make the shoe more versatile for both tempo runs and races. A full-length carbon and TPU plate are sandwiched in the midsole to propel your foot forward. This helps create a smoother and more propulsive rebound during the toe-off phase of your stride. The midsole's top layer is reconstructed with FF BLAST™ PLUS cushioning. This makes your stride feel even more propulsive, while keeping the shoe lightweight.

FEATURES

- Engineered mesh upper improves breathability
- At least 50% of the shoe's main upper material is made with recycled materials to reduce waste and carbon emissions
- The sockliner is produced with the solution dyeing process that reduces water usage by approximately 33% and carbon emissions by approximately 45% compared to the conventional dyeing technology
- Full-length carbon and TPU plate add structure and improve toe-off propulsion
- FF BLAST™ PLUS cushioning provides lightweight impact absorption and a responsive rebound
- ASICSGRIP™ rubber outsole improves traction

HYPER SPEED™ 2

The HYPER SPEED™ 2 shoe helps you get to the finish line faster while using less energy. This shoe's fast design helps you focus on your training as you move towards a new personal best. Thanks to the shoe's higher stack height, it creates a more energized stride. This responsive rebound helps you conserve more energy, while propelling you towards a faster time.

FEATURES

- Breathable mesh upper
- Higher stack height in the midsole
- FLYTEFOAM™ cushioning provides lightweight impact absorption
- AHAR® outsole improves durability
- The sockliner is produced with the solution dyeing process that reduces water usage by approximately 33% and carbon emissions by approximately 45% compared to the conventional dyeing technology

NOOSA TRI™ 14

The NOOSA TRI™ 14 shoe remixes archived inspiration with a sock-like fit. It's formed with a lightweight construction and an efficient ride underfoot. Bold colours and patterns on the engineered mesh upper are inspired by the early GEL-NOOSA™ styles from the 2000s. Convenient features, like the heel pull-tabs and toggled laces make the shoes easier to put on. This makes it more practical after exiting the swim stage of a triathlon or getting out the door quicker. With GUIDESOLE™ technology underfoot, these shoes help reduce ankle flexion. Its curved design allows you to conserve more energy while experiencing an easy forward roll.

FEATURES

- FLYTEFOAM™ cushioning provides lightweight impact absorption
- GUIDESOLE™ technology helps conserve energy by reducing ankle flexion
- Engineered mesh upper improves breathability
- AHARPLUS™ outsole improves durability
- Sockliner is produced with a solution dyeing process that reduces water usage and carbon emissions
- Full-ground contact design creates a smoother and more efficient ride
- Toggled laces make it easier to personalize the shoe's fit
- Heel pull tabs makes the shoes easier to take on and off

TRABUCO MAX™ 2

TRABUCO MAX™ 2

The TRABUCO MAX™ 2 shoe draws inspiration from the concept of technology and how it can be synchronized with nature to free the mind and body. It continues to provide advanced energy savings and cushioning properties to help you navigate the trails with less effort. FF BLAST™ PLUS technology has been added to the midsole to create effortless impact absorption while propelling your momentum forward. This material also creates a more dynamic feel that helps keep the shoe lightweight. GUIDESOLE™ technology is strategically positioned to create an easy forward roll. Additionally, it's scientifically proven to help increase your potential to run further while using less energy.

FEATURES

- GUIDESOLE™ technology helps conserve energy
- FF BLAST™ PLUS cushioning creates a softer landing and a more responsive toe-off
- ASICSGRIP™ outsole improves durability
- ORTHOLITE™ insole provides soft step-in comfort
- Breathable mesh upper
- Gaiter system
- 3D print upper improves support
- Toggled speed lacing system

FF BLAST™

INTEGRATED SUSTAINABILITY

LIGHTER, SOFTER, MORE VERSATILE

GEL-TRABUCO™ 11

GEL-TRABUCO™ 11

The GEL-TRABUCO™ 11 shoe is a versatile trail style that offers advanced stability with less weight. It also features a more adaptable design that's reimagined with better traction for the trails. An adaptive guidance system and wide basenets help create a more stable ride on varying terrain. They're functional for when you need extra support during the later stages of your outdoor excursion. Its updated rock protection plate features a flexible construction that shields your feet from sharp rocks and rugged terrain. We also added 2mm to the foam's stack height to improve comfort and impact absorption. The outsole is formed with a revamped ASICSGRIP™ technology that is more sustainable to produce. This material helps you experience better traction on varying off-road surfaces.

FEATURES

- Adaptive guidance system helps create a more stable ride on varying terrain
- Lace garage helps keep the laces from coming untied
- Rearfoot GEL® technology improves impact absorption and creates a softer feeling at footstrike
- FF BLAST™ cushioning creates a more responsive rebound to give your stride an energized feel
- DUOMAX® support system is positioned on the inside of the midsole to help prevent overpronation
- Rock protection plate features a flexible design that helps shield your foot from rocks and rugged terrain
- ASICSGRIP™ outsole rubber provides advanced grip on varying terrain
- Full-ground contact design creates a smoother and more efficient ride

The GEL-TRABUCO™ 11 GTX shoe is a versatile trail style that offers advanced stability with less weight. It's designed with a GORE-TEX™ membrane that helps keep your feet warm and dry in wet conditions. An adaptive guidance system and wide basenets help create a more stable ride on varying terrain. They're functional for when you need extra support during the later stages of your outdoor excursion. Its updated rock protection plate features a flexible construction that shields your feet from sharp rocks and rugged terrain. We also added 2mm to the foam's stack height to improve comfort and impact absorption. The outsole is formed with a revamped ASICSGRIP™ technology that is more sustainable to produce. This material helps you experience better traction on varying off-road surfaces.

FEATURES

- GORE-TEX™ membrane helps prevent rain and snow from entering the shoe's interior
- Adaptive guidance system helps create a more stable ride on varying terrain
- Lace garage helps keep the laces from coming untied
- Rearfoot GEL® technology improves impact absorption and creates a softer feeling at footstrike
- FF BLAST™ cushioning creates a more responsive rebound to give your stride an energized feel
- DUOMAX® support system is positioned on the inside of the midsole to help prevent overpronation
- Rock protection plate features a flexible design that helps shield your foot from rocks and rugged terrain
- ASICSGRIP™ outsole rubber provides advanced grip on varying terrain
- Full-ground contact design creates a smoother and more efficient ride

FUJI SPEED™

Comfortable, durable, and fast, the Fuji Speed™ shoe is functional for longer distances on the trails. The upper is designed with a lightweight NEXKIN® material to increase durability against abrasions from rocks and roots. Meanwhile, the speed laces reduce pressure against the top of the foot while creating a supportive fit. Inspired by our road racing shoes, this shoe features a Pebax® propulsion plate and GUIDESOLE™ technology. These technologies help create an easy propulsive ascent and smooth descent on even the most technical trail.

FEATURES

- NEXKIN® upper reduces the shoe's weight while increasing durability against abrasions from rocks and roots
- An asymmetrical lacing system helps reduce pressure across the top of the foot
- Lace garage helps keep the laces from coming untied
- GUIDESOLE™ technology helps you conserve energy by reducing ankle flexion
- FLYTEFOAM™ cushioning provides lightweight impact absorption
- Pebax® propulsion plate helps redirect your energy forward while creating a faster feel underfoot
- ASICSGRIP™ outsole rubber provides advanced grip on varying terrain

FUJI LITE™ 3

The FUJI LITE™ 3 shoe is inspired by the Hinoki Cypress tree that's native to Mount Fuji. It keeps you focused on the path ahead and guides you towards a more positive mindset. Key updates include a greater percentage of recycled textiles for the upper construction. This allows us to reduce waste and re-use leftover resources. Following a sustainable design approach, the reshaped FLYTEFOAM™ midsole is formed with recycled materials. This foam creates lightweight shock absorption, propelling your stride forward as you move through the trails. Lastly, the shoe's outsole is designed to increase traction on muddy or loamy surfaces.

FEATURES

- Engineered mesh upper improves breathability
- At least 50% of the shoe's main upper material is made with recycled materials to reduce waste and carbon emissions
- The sockliner is produced with the solution dyeing process that reduces water usage by approximately 33% and carbon emissions by approximately 45% compared to the conventional dyeing technology
- Reflective details help improve visibility
- Lace garage tongue feature allows the wearer to tuck in their laces, so they don't come untied or snag anything when they're running
- FLYTEFOAM™ cushioning consists of cellulose nanofibre, a bio-based material applied as a component of this shoe's midsole
- ASICSGRIP™ outsole helps runners experience better traction and durability on wet and dry trail surfaces

GEL-SONOMA™ 7

The GEL-SONOMA™ 7 shoe is designed for the great outdoors. It's a durable trail model that's made to provide good grip on off-road surfaces. Underfoot comfort stems from a full-length AMPLIFOAM™ midsole and GEL® technology unit that's strategically placed where cushioning is needed. Lastly, the trail-specific outsole is functional for providing advanced traction. Its pattern helps you experience a confident stride on the uphill and downhill sections of challenging terrain.

FEATURES

- AMPLIFOAM™ technology cushioning
- Rearfoot GEL® technology improves impact absorption and creates a softer feeling at footstrike
- Solid rubber outsole
- ORTHOLITE™ sockliner provides soft step-in comfort
- Sustainable sockliner dye

CORE RUNNING

FOOTWEAR

GEL-EXCITE™ 9

The GEL-EXCITE™ 9 shoe is a comfortable trainer for the casual fitness runner. Thanks to its engineered jacquard mesh upper, this material increases airflow while creating a softer feel against your foot. A combination of AMPLIFOAM™ cushioning and GEL® technology are placed in the midsole. These features provide better impact absorption with a more forgiving landing at footstrike.

FEATURES

- Engineered jacquard mesh upper creates a softer feel against the foot while improving breathability
- AMPLIFOAM™ cushioning improves durability and creates a more flexible feel at footstrike
- Rearfoot GEL® technology improves impact absorption and creates a softer feeling at footstrike
- OrthoLite™ sockliner provides soft step-in comfort
- GUIDANCE LINE™ technology provides a more consistent stride

GEL-CONTEND™ 8

The GEL-CONTEND™ 8 running shoe provides good cushioning, support, and durability. A jacquard mesh upper stretches with the foot's natural motion and creates a comfortable fit. Meanwhile, the synthetic stitching on the overlays helps create a more supportive foothold. The midsole features GEL® technology and AMPLIFOAM™ cushioning. These technologies help increase durability while creating a softer feel underfoot. "

FEATURES

- Rearfoot GEL® technology cushioning improves impact absorption and creates a softer feeling at footstrike
- Jacquard mesh upper improves airflow
- OrthoLite™ sockliner offers excellent step-in comfort
- Flex grooves in the outsole improve flexibility
- Synthetic stitching on the overlays improves support
- AMPLIFOAM™ cushioning helps improve durability
- GUIDANCE LINE™ technology provides a more consistent stride
- At least 20% of the shoe's main upper material is made with recycled materials to reduce waste and carbon emissions
- The sockliner is produced with the solution dyeing process that reduces water usage by approximately 33% and carbon emissions by approximately 45% compared to the conventional dyeing technology

JOLT™ 4

The new JOLT™ 4 shoe is designed to help you run or walk more comfortably. This shoe combines an injection EVA midsole with a solid rubber outsole for improved durability. Drawing inspiration from our longstanding GT series, this trainer offers classic styling and a great fit. To make this edition even softer and move with your foot better on the run, we have engineered more flex grooves in the outsole. The upper is reinforced with stitch down overlays. Lastly, a more accommodating forefoot fit and a soft ORTHOLITE™ sockliner will help keep you stay comfortable throughout the day.

FEATURES

- Flexible mesh upper
- Synthetic stitching on the overlays
- OrthoLite™ sockliner provides soft step-in comfort

S D KID

FOOTWEAR

NOVABLAST™ 2 GS

The NOVABLAST™ 2 GS (Grade School) shoe is the kid’s version of the iconic NOVABLAST series. It features an energetic bounce underfoot that’s inspired by the feeling of jumping on a trampoline. Created using a kid’s-specific last, these shoes offer a more accommodating fit for growing feet. With a solid rubber outsole and medial wrap-up, these shoes improve durability. Meanwhile, motivational details, like the phrase “Better your Best” appear on the outsole.

FEATURES

- Breathable mesh upper
- FF BLAST™ cushioning creates lightweight shock absorption with a responsive rebound
- The solid rubber outsole and medial wrap-up improve the shoe’s durability
- The phrase, “Better your Best” appears on the outsole

GT-1000® 11

The GT-1000® 11 shoe is designed to keep energized feet in motion. A LITETRUSST™ support system is placed in the midsole to increase stability as kids roll through their stride. Meanwhile, E.V.A cushioning and GEL® technology create good shock absorption with a softer feel underfoot. Designed with a kid’s-specific last, these shoes offer a more accommodating fit for growing feet. Lastly, this style includes a solid rubber outsole, a medial wrap-up, and toe rubber stitching to improve durability.

FEATURES

- Breathable mesh upper
- GEL® technology provides good shock absorption
- E.V.A cushioning
- Kid’s specific last creates a more accomodating fit
- The solid rubber outsole and medial wrap-up improve the shoe’s durability

GEL-NOOSA TRI™ 13

Drawing design cues from our flagship triathlon shoe, the NOOSA TRI™ 13 GS (Grade School) style channels the same energetic colour blocking, along with a technical design. Featuring a mesh upper to increase airflow that helps keep feet cool, this shoe's vibrant colourway is combined with a series of bold "NOOSA" graphics. Injected with improved comfort in the midsole, thanks to the injection E.V.A midsole and increased flexibility in the forefoot, this shoe also incorporates a toe stitched rubber outsole compound for improved durability.

FEATURES

- Breathable mesh upper
- GEL® technology cushioning provides excellent shock absorption
- Injection E.V.A midsole cushioning
- Stitched toe and solid rubber outsole improve durability

CONTEND™ 8 GS

The CONTEND™ 8 GS (Grade School) shoe is designed for young feet. Details like the toecap, toe rubber stitching, and solid rubber outsole increase durability and lengthen the shoe's lifespan.

FEATURES

The toecap, toe rubber stitching, and solid rubber outsole improve durability
At least 20% of the upper's material is made with recycled polyester
The sockliner is produced with the solution dyeing process that reduces water usage by approximately 33% and carbon emissions by approximately 45% compared to the conventional dyeing technology

UPPER

ANTI-GRAVEL TONGUE

Reinforced tongue construction to prevent debris from entering the shoe.

BUNION WINDOW

Soft stretchy area on the medial forefoot reducing the risk of irritation and discomfort.

ENGINEERED MESH

A technical mesh material that stretches in multiple directions, creating a glove, “snug like” fit that provides a unique balance of comfort and fit.

INNER LOCK LACING

Asymmetrical internal straps to secure foot to platform of shoe, improving fit and stability.

INTERNAL UPPER SUPPORT SYSTEM

Internal underlay in the upper which allows targeted support in key areas.

MEDIAL SUPPORT PANEL

Providing additional support on the medial side of the upper keeping the foot secure on platform.

REFLECTIVITY

Visibility for enhanced nighttime and early morning reflective brightness.

SEAMLESS CONSTRUCTION

Seamless construction reduce the potential for irritation and friction caused by traditional stitches and overlays.

CUSHIONING

3D SPACE CONSTRUCTION™

Reduces weight and allows the runner to deform the midsole more (more cushioned feeling) without sacrificing durability. Gender Specific to accommodate gait differences.

AMPLIFOAM™ MIDSOLE

ASICS proprietary midsole material tuned for comfortable cushioning.

FLYTEFOAM® BLAST TECHNOLOGY

A lightweight responsive foam formulation delivering a bouncy and energetic ride.

FLYTEFOAM® TECHNOLOGY

One of ASICS's lightest weight midsole foam that provides continuous cushioning.

FLYTEFOAM® PROPEL TECHNOLOGY

A responsive foam formulation delivering excellent bounce back characteristics.

GEL® TECHNOLOGY

Shock attenuating material placed in midsole of the shoe for excellent cushioning and shock absorption.

GENDER-SPECIFIC CUSHIONING

Softer density used in the midsole material of women's models to cater for the lighter body weight generally seen in females.

HEEL GRADIENT 10MM

ASICS' Football boot technology that shifts body mass forward - helping to reduce strain on lower limbs.

PLUS 3® TECHNOLOGY

3mm of additional heel stack height on women's models to address the differences in male and female biomechanics.

REMOVABLE SOCKLINER

A sockliner which can be removed.

ORTHOLITE™ LASTING

This lasting material features plush underfoot comfort while providing excellent moisture management and a high level of breathability(OrthoLite is a registered trademark of ATP Manufacturing LLC).

TWIST GEL®

Strategically positioned GEL® technology unit placed under the forefoot for cushioning and also to assist with propulsion.

STABILITY

DUOMAX® TECHNOLOGY

A dual-density midsole system positioned to enhance support and stability.

DYNAMIC DUOMAX™ TECHNOLOGY

This evolution of DUOMAX™ system enhances stability and support, with reduced weight and increased platform comfort..

DYNAMIC FOREFOOT CRADLE

Reinforced EVA component contoured to provide medial stability to the forefoot.

EXTERNAL HEEL CLUTCH

External heel counter delivering better overall fit and targeted support.

GENDER-SPECIFIC TRUSSTIC® TECHNOLOGY

Specifically designed TRUSSTIC technology to cater to the differences in male and female biomechanics.

GUIDANCE LINE® TECHNOLOGY

Flex grooves that decouples the midsole for enhanced running efficiency and stride repeatability.

GUIDANCE TRUSSTIC™ TECHNOLOGY

GUIDANCE TRUSSTIC™ technology integrates GUIDANCE LINE® construction for enhanced running efficiency while providing midfoot structural integrity.

STABILITY

IMPACT GUIDANCE SYSTEM™ (I.G.S)

ASICS design philosophy to enhance the foot's natural function to improve running efficiency.

LATERAL FULL GROUND CONTACT

Using full ground outsole contact geometry for a smoother, more efficient ride.

TRUSSTIC® TECHNOLOGY

A molded component under the mid-foot area that provides stability and, in combination with the contoured midsole, helps to control torsion.

OUTSOLE

AHAR® TECHNOLOGY

ASICS High Abrasion Resistant rubber, is placed in critical areas of the outsole for exceptional durability.

AHARPLUS™ TECHNOLOGY

AHARPLUS™ provides the best durability within the AHAR family, 3x more durable than standard rubber.

DUOSOLE® TECHNOLOGY

Outsole construction offering lightweight and flexible traction durability.

WET GRIP® RUBBER

An outsole material designed to enhance traction, especially on wet surfaces.

EFFICIENCY / SPEED

GUIDESOLE™ TECHNOLOGY

The curved sole design of our GUIDESOLE™ technology reduces ankle flexion and provides a shock-absorbent landing zone to reduce loads on the foot.

PROPULSION TRUSSTIC® TECHNOLOGY

Propulsion plate built into the forefoot midsole to enable a more dynamic toe-off.

TRAIL

ASICSGRIP™

ASICS proprietary outsole rubber provides high grip on various terrain, without compromising durability.

LACE GARAGE

Lace pocket enabling laces to be tucked in and unexposed.

ROCK PROTECTION PLATE

Flexible forefoot plate that provides protection against stone bruising and high impact on the trail.

WATER RESISTANCE

TA surface coating that helps the upper resist water absorption(not waterproof).

TENNIS/MULTI-SPORT

DYNAWALL™ TECHNOLOGY

Reinforced wall providing increased stability during high intensity lateral movements.

DYNAWRAP™

Component in the lacing system improves stability during side-to-side motions.

PGUARD® TECHNOLOGY

Reinforced compound around the toebox providing increased durability and protection.

TWISTRUSS™ TECHNOLOGY

Improves arch support and torsion stability with dual hardness system softer on lateral side.
