SOUND MIND, SOUND BODY™

At ASICS, we believe in the positive impact of sport on the mind. Take our name, an acronym for Anima Sana in Corpore Sano or “a sound mind in a sound body.” Our founding philosophy is perhaps more relevant than ever and we’re recommitting to promoting the positive, uplifting power of sport.

GEL-NIMBUS® 26

The GEL-NIMBUS® 26 shoe's soft cushioning properties help you feel like you're landing on clouds. This design is revamped with new materials that create a softer and smoother running experience.

A soft engineered knit upper comfortably wraps your foot while supplying advanced ventilation. Additionally, the knit collar and midfoot fit help provide a comfortable feel.

The midsole is packed with the most cushioning that the series has offered to date. By using FF BLAST™ PLUS ECO cushioning, this trainer creates a lighter and softer cushioning experience with less of an impact on the environment.

Lastly, the Hybrid ASICSGRIP™ outsole rubber helps create better traction, improved softness, and advanced durability.

FEATURES

- Engineered knit upper
 - Wraps the foot with a soft feel while improving breathability
 - At least 75% of the shoe's main upper material is made with recycled content to reduce waste and carbon emissions
- The sockliner is produced with the solution dyeing process that reduces water usage by approximately 33% and carbon emissions by approximately 45% compared to the conventional dyeing technology
- PureGEL™ technology
 - Helps provide lightweight cushioning and softer landings
- FF BLAST™ PLUS ECO technology
 - Cushioning creates a softer landing and a more responsive toe-off
- OrthoLite™ X-55 sockliner
 - Improves step-in comfort
- Reflective details
 - Designed to improve visibility in low-light conditions
- AHAR® outsole rubber
 - Improves durability
- Hybrid ASICSGRIP™ outsole rubber
 - Help create better traction, improved softness, and advanced durability

GEL-CUMULUS® 26

Experience a softer feel underfoot with the GEL-CUMULUS® 26 shoe. This neutral everyday trainer is a versatile choice for various running workouts and distances.

FF BLAST™ PLUS cushioning and PureGEL™ technology are strategically positioned in the midsole. These materials help create softer landings and a more energized toe-off during your training.

The FLUIDRIDE™ outsole features a rubberized EVA blend. This combination helps create a smoother and more comfortable feel underfoot.

FEATURES

FF BLAST™ PLUS technology

Cushioning provides lightweight impact absorption and a responsive rebound

PureGEL™ technology .

Helps provide lightweight cushioning and softer landings

Engineered mesh upper

Helps improve breathability and comfort

The sockliner is produced with the solution dyeing process that reduces water usage by approximately 33% and carbon emissions by approximately 45% compared to the conventional dyeing technology

At least 75% of the shoe's main upper material is made with recycled content to reduce waste and carbon emissions

GEL-CUMULUS® 25 GTX

Experience a softer feel underfoot with the GEL-CUMULUS® 25 GTX shoe. This neutral everyday trainer is a versatile choice for various running workouts and distances.

With an invisible GORE-TEX™ paneling on the upper, this shoe helps prevent rain and snow from entering the shoe's interior. It's also functional for improving the shoe's fit and making it more breathable.

We've updated the midsole with our PureGEL™ technology and FF BLAST™ PLUS cushioning. These materials help create softer landings and a more energized toe-off during your training.

FEATURES

- FF BLAST™ PLUS cushioning
- Provides lightweight impact absorption and a responsive rebound
- PureGEL™ technology
- Helps provide lightweight cushioning and softer landings
- Invisible GORE-TEX™ membrane
- Features an improved fit, better breathability, and helps prevent rain and snow from entering the shoe's interior
- The sockliner is produced with the solution dyeing process that reduces water usage by approximately 33% and carbon emissions by approximately 45% compared to the conventional dyeing technology
- Reflective details
- Designed to help improve visibility in low-light conditions
- At least 75% of the shoe's main upper material is made with recycled content to reduce waste and carbon emissions
- OrthoLite™ X-30 sockliner
- Provides soft step-in comfort
- Full-ground contact design
- Creates a smoother and more efficient ride
- AHAR® outsole rubber
- Improves durability
- Vegan Friendly: For this product, no materials of animal origin are applied in the design and material selection stages, including: the yarns, glues or other adhesives applied in the product. *The product is not certified as vegan by an independent third party.

GEL-KINSEI® MAX

The GEL-KINSEI® MAX trainer takes the experience of running on clouds to the next level. It's been redesigned for runners who want every step to feel like it's oozing with softness.

The tooling is modified with our FF BLAST™ PLUS ECO cushioning for the midsole's top layer. This helps provide cloud-like comfort while creating an energized feel at toe-off.

A TPU midsole plate is positioned in the center of the midsole to provide a more dynamic toe-off. It also works in tandem with the new rubber foaming and Hybrid GEL® technology to help create smoother underfoot transitions.

FEATURES

Engineered mesh upper Improves airflow to help your feet keep cool

At least 20% of the shoe's main upper material is made with recycled content to reduce waste and carbon emissions

The sockliner is produced with the solution dyeing process that reduces water usage by approximately 33% and carbon emissions by approximately 45% compared to the conventional dyeing technology

TPU propulsion plate. Helps redirect the runner's energy forward and create a faster feel

FF BLAST™ cushioning. Provides lightweight impact absorption and a responsive rebound

FF BLAST™ PLUS ECO cushioning is made with approx. 24% bio-based content and helps provide cloud-like comfort

Hybrid GEL® Technology. A hybrid version of our conventional GEL® technology. It's created with a foam center to help reduce weight while maintaining cushioning performance and impact absorption.

E.V.A sockliner. Offers soft step-in comfort

Reflective details. Designed to help improve visibility in low-light conditions

Strategic outsole engineering. Improves grip and durability

AHARPLUS™ heel plug. Improves durability

Vegan Friendly: For this product, no materials of animal origin are applied in the design and material selection stages, including: the yarns, glues or other adhesives applied in the product. *The product is not certified as vegan by an independent third party.

FOOTWEAR

GEL-KAYANO® 30

From 5Ks to full marathons, the GEL-KAYANO® 30 shoe is designed to provide advanced stability and softer cushioning properties.

The new 4D GUIDANCE SYSTEM™ helps provide adaptive stability. This helps you experience a more supportive and balanced stride during your distance training.

Its midsole is revamped with FF BLAST™ PLUS ECO cushioning and a 4mm stack height increase. With approximately 20% bio-based content, this material helps create cloud-like softness in every step.

The new PureGEL™ technology is strategically positioned below the heel for a smoother ride. It's 65% softer than conventional visible GEL® technology, allowing your distance training to feel surprisingly smooth.

FEATURES

- Engineered stretch knit upper
- Improves breathability
- External back heel counter
- Helps keep the foot stable and provide a more comfortable stride
- 4D GUIDANCE SYSTEM™ feature
- Helps create adaptive stability for a more balanced stride
- Rearfoot PureGEL™ technology
- Helps provide lightweight cushioning and softer landings
- FF BLAST™ PLUS ECO cushioning is made with approximately 20% bio-based content and helps provide cloud-like comfort
- OrthoLite™ X-55 sockliner
- Improves comfort
- Reflective details
- Designed to help improve visibility
- AHARPLUS™ heel plug
- Improves the outsole durability
- At least 75% of the shoe's main upper material is made with recycled materials to reduce waste and carbon emissions
- The sockliner is produced with the solution dyeing process that reduces water usage by approximately 33% and carbon emissions by approximately 45% compared to the conventional dyeing technology

GT-2000® 12 GTX

The GT-2000™ 12 GTX shoe is a versatile stability trainer that's functional for various distances. Thanks to the GORE-TEX™ upper, it's engineered to help your feet keep dry in wet conditions.

The midsole is updated with a full-length FF BLAST™ PLUS cushioning unit and PureGEL™ technology. These features help provide a more energized toe-off with cloud-like softness underfoot.

Meanwhile, the 3D GUIDANCE SYSTEM™ consists of wider basenets and an increased heel bevel and forefoot flare. As a result, you'll experience a silky-smooth transition from footstrike to toe-off.

FEATURES

GORE-TEX™ upper

Helps keep your feet dry in wet conditions

At least 50% of the shoe's main upper material is made with recycled content to reduce waste and carbon emissions

The sockliner is produced with the solution dyeing process that reduces water usage by approximately 33% and carbon emissions by approximately 45% compared to the conventional dyeing technology

3D GUIDANCE SYSTEM™ helps provide advanced stability for a smoother stride

Rearfoot PureGEL™ technology

Helps provide lightweight cushioning and softer landings

FF BLAST™ PLUS cushioning

Helps provides lightweight impact absorption and a responsive rebound

OrthoLite™ X-30 sockliner

Helps provides soft step-in comfort

AHARPLUS™ heel plug rubber

Helps improve durability

AHAR® LO-HRD outsole material

Helps improve resistance against wear

Reflective details

Designed to help improve visibility in low-light settings

Vegan Friendly: For this product, no materials of animal origin are applied in the design and material selection stages, including: the yarns, glues or other adhesives applied in the product. *The product is not certified as vegan by an independent third party.

GT-1000® 12 GTX

Our approach for the GT-1000® 12 GTX shoe was to modernize the shape and make it more comfortable. It's designed for an active lifestyle and is functional for running or wearing it to the gym.

With GORE-TEX™ paneling on the upper, this shoe helps prevent rain and snow from entering the shoe's interior. These features are also met with a tongue wing construction that helps provide a more supportive fit.

LITETRUSSTM technology is placed on the midsole's inside angle to reduce pronation. It helps produce a more supportive stride while keeping overpronation at bay.

FEATURES

GORE-TEX™ membrane

Helps prevent rain and snow from entering the shoe's interior

Tongue wing construction

Helps create a more supportive fit

External back counter

Improves the fit and helps increase stability

LITETRUSSTM technology

Improves medial support and midfoot integrity

FLYTEFOAM™ cushioning

Provides lightweight impact absorption

Rearfoot GEL® technology

Improves impact absorption and creates a softer feeling at footstrike

OrthoLite™ X-30 sockliner

Provides soft step-in comfort

Vegan Friendly: For this product, no materials of animal origin are applied in the design and material selection stages, including: the yarns, glues or other adhesives applied in the product. *The product is not certified as vegan by an independent third party.

BOUNCE

FOOTWEAR

NOVABLAST™ 4

The NOVABLAST™ 4 running shoe features a new midsole and outsole geometry that helps produce its most energized ride yet.

A tongue wing construction in the upper helps improve the fit while reducing tongue movement. It's complemented with an engineered woven upper that offers more stretch, ventilation, and durability.

FF BLAST™ PLUS ECO cushioning is made with 20% recycled bio content. This material helps create softer landings and a more energized toe-off during your training.

FEATURES

- Engineered woven upper
- Offers advanced stretch, ventilation, and durability
- Tongue wing construction
- Added stretch helps improve the fit while reducing tongue movement
- The heel stabilizer helps support the foot and create a more balanced stride
- Gusseted tongue wing fit system improves the midfoot fit and reduces tongue sliding
- FF BLAST™ PLUS ECO cushioning
- Made with approximately 20% bio-based content and helps provide cloud-like comfort
- Trampoline-inspired outsole design
- Helps provide a more responsive bounce back
- AHAR® outsole improves durability
- At least 75% of the shoe's main upper material is made with recycled materials to reduce waste and carbon emissions
- The sockliner is produced with the solution dyeing process that reduces water usage by approximately 33% and carbon emissions by approximately 45% compared to the conventional dyeing technology
- Reflective details help improve visibility in low-light settings

NOVABLAST™ 4 TR

The NOVABLAST™ 4 TR running shoe features a bouncy underfoot feel with a high energy return. It's designed with a trail-specific outsole that's functional for running on off-road surfaces.

A tongue wing construction in the upper helps improve the fit while reducing tongue movement. This component is reinforced with a supportive heel design to help guide the foot with more control through your gait cycle.

FF BLAST™ PLUS ECO cushioning is made with 20% recycled bio content. This material helps create softer landings and a more energized toe-off during your training.

FEATURES

- Engineered woven upper provides good comfort and support while keeping feet cool
- The heel stabilizer helps support the foot and create a more balanced stride
- Gusseted tongue wing fit system improves the midfoot fit and reduces tongue sliding
- FF BLAST™ PLUS ECO cushioning is made with approximately 20% bio-based content and helps provide cloud-like comfort
- Trampoline-inspired outsole design provides a more responsive bounce back
- AHAR® outsole improves durability
- At least 75% of the shoe's main upper material is made with recycled materials to reduce waste and carbon emissions
- The sockliner is produced with the solution dyeing process that reduces water usage by approximately 33% and carbon emissions by approximately 45% compared to the conventional dyeing technology
- Reflective details help improve visibility in low-light settings
- Hybrid outsole design
- Functional for road and groomed trail surfaces
- Trail specific outsole

DYNABLAST™ 4

The DYNABLAST™ 4 shoe is designed for the fitness enthusiast seeking comfort for their runs or training routine.

A soft, engineered woven upper and mesh tongue improves the shoe's fit, comfort, and breathability.

The midsole and outsole are asymmetrically engineered to target the ball of your foot and heel striking zone. This helps create a higher energy return and more bounce at a lower stack height.

FEATURES

Engineered woven upper improves breathability
FF BLAST™ technology provides lightweight cushioning and a responsive rebound
Underfoot cutouts provide excellent bounce
OrthoLite™ X-30 sockliner provides soft step-in comfort
AHARPLUS™ outsole rubber improves durability
At least 50% of the shoe's main upper material is made with recycled materials to reduce waste and carbon emissions
The sockliner is produced with the solution dyeing process that reduces water usage by approximately 33% and carbon emissions by approximately 45% compared to the conventional dyeing technology

VERSABLAST™ 3

The VERSABLAST™ 3 shoe is a versatile training partner for varied workouts and running regimens.

Inspired by our BLAST BEYOND series, we wanted to make this shoe softer and lighter. It's designed to provide good comfort for a range of activities.

By focusing on the shoe's energy return, we equipped the midsole foam with a responsive rebound for a fast feel underfoot.

FEATURES

Russel mesh upper

Helps provide good breathability

Midsole foam

Provides soft cushioning with a responsive rebound

SPEED

FOOTWEAR

MAGIC SPEED™ 3

The MAGIC SPEED™ 3 shoe is designed to support your racing goals. In addition to the softer cushioning experience, this shoe helps create better stability throughout your stride.

A full-length carbon plate is sandwiched in the midsole to propel your foot forward. This helps create a smoother and more propulsive experience during the toe-off phase of your stride.

Both layers of the midsole are reconstructed with FF BLAST™ PLUS cushioning. This makes the ride feel bouncier and more energetic during tempo runs and races.

FEATURES

MOTION WRAP™ upper

Improves breathability

At least 50% of the shoe's main upper material is made with recycled materials to reduce waste and carbon emissions

The sockliner is produced with the solution dyeing process that reduces water usage by approximately 33% and carbon emissions by approximately 45% compared to the conventional dyeing technology

Full-length carbon plate

Adds structure and improve toe-off propulsion

FF BLAST™ PLUS cushioning

Provides lightweight impact absorption and a responsive rebound

ASICSGRIP™ rubber outsole

Improves traction

SPEED

Confidential and proprietary information. Intended solely for informational purposes and internal use. Not for distribution.

HYPER SPEED™ 3

The HYPER SPEED™ 3 shoe is designed to complement your training and racing routine. This version includes a modified upper construction that's met with various customizable features.

The shoe's engineered mesh material is designed to improve breathability so your feet can keep cool and comfortable during your run.

Holes in the eyestay decreased from 18 to 16, which helps provide a more balanced fit that's easier to customize. Meanwhile, an elastic lace component is positioned on top of the tongue to create better lace support.

FEATURES

- Engineered mesh upper for breathability
- FLYTEFOAM™ cushioning
- Provides lightweight impact absorption
- AHAR® outsole
- Improves durability
- The sockliner is produced with the solution dyeing process that reduces water usage by approximately 33% and carbon emissions by approximately 45% compared to the conventional dyeing technology
- At least 75% of the shoe's main upper material is made with recycled materials to reduce waste and carbon emissions
- Vegan Friendly: For this product, no materials of animal origin are applied in the design and material selection stages, including: the yarns, glues or other adhesives applied in the product. *The product is not certified as vegan by an independent third party.

NOOSA TRI™ 15

The NOOSA TRI™ 15 shoe features an Avant Garde approach that's inspired by Van Gogh paintings. As always, the shoe is designed to stand out from a visual and underfoot comfort perspective.

Bold colours and patterns are met with a breathable engineered mesh upper to help keep your feet cool and comfortable.

We updated the midsole with a full-length FF BLAST™ cushioning unit to create lightweight impact absorption underfoot. Additionally, we added 1mm of foam for a more forgiving landing and a smoother ride.

FEATURES

FF BLAST™ cushioning

Provides lightweight impact absorption and a responsive rebound

GUIDESOLE™ technology

Helps conserve energy by reducing ankle flexion

Engineered mesh upper

Improves breathability

AHARPLUS™ outsole

Helps to improve durability

The sockliner is produced with a solution dyeing process that reduces water usage by approximately 33% and carbon emissions by approximately 45% compared to the conventional dyeing technology

Full-ground contact design

Creates a smoother and more efficient ride

Vegan Friendly: For this product, no materials of animal origin are applied in the design and material selection stages, including: the yarns, glues or other adhesives applied in the product. *The product is not certified as vegan by an independent third party.

TRAIL

FOOTWEAR

TRABUCO™ MAX 3

The TRABUCO MAX™ 3 shoe helps you navigate the trails with less effort so you can enjoy the calming feel of running in nature.

FF BLAST™ PLUS technology in the midsole helps create effortless impact absorption while propelling your momentum forward. This material also creates a more dynamic feel that helps keep the shoe lightweight.

GUIDESOLE™ technology is strategically positioned to create an easy forward roll. It's scientifically proven to help increase your potential to run further while using less energy.

Lastly, the ASICSGRIP™ outsole rubber helps increase traction on off-road surfaces.

FEATURES

Jacquard mesh upper

Helps improve breathability and comfort

At least 50% of the shoe's main upper material is made with recycled materials to reduce waste and carbon emissions

The sockliner is produced with the solution dyeing process that reduces water usage by approximately 33% and carbon emissions by approximately 45% compared to the conventional dyeing technology

GUIDESOLE™ technology

Helps conserve energy

FF BLAST™ PLUS technology

GEL-TRABUCO™ 12 GTX

The GEL-TRABUCO™ 12 GTX shoe is a versatile trail style that offers adaptive stability with less weight. It's designed with a GORE-TEX™ membrane that helps keep your feet warm and dry in wet conditions.

An adaptive guidance system and wide basenets help create a more stable ride on varying terrain. They're functional for when you need extra support during the later stages of your outdoor excursion.

Its rock protection plate features a flexible construction that shields your feet from sharp rocks and rugged terrain.

The outsole is formed with a revamped ASICSGRIP™ technology. This material helps you experience better traction on varying off-road surfaces.

FEATURES

- GORE-TEX™ membrane helps prevent rain and snow from entering the shoe's interior
- At least 50% of the shoe's main upper material is made with recycled materials to reduce waste and carbon emissions
- The sockliner is produced with the solution dyeing process that reduces water usage by approximately 33% and carbon emissions by approximately 45% compared to the conventional dyeing technology
- Adaptive guidance system
- Helps create a more stable ride on varying terrain
- Lace garage
- Helps keep the laces from coming untied
- Rearfoot GEL® technology
- Improves impact absorption and creates a softer feeling at footstrike

FUJI LITE™ 4

The FUJI LITE™ 4 shoe provides advanced grip to give you the confidence to go fast on the trails.

FF BLAST™ cushioning is positioned in the midsole to help provide lightweight impact absorption to keep your feet comfortable on varying terrain.

Its modified outsole design is reimagined with a lighter construction and better grip. These updates help you experience better traction on uneven terrain with wet conditions.

FEATURES

Engineered mesh upper

Improves breathability

At least 50% of the shoe's main upper material is made with recycled materials to reduce waste and carbon emissions

Reflective details

Help improve visibility

Lace garage tongue feature

Allows the wearer to tuck in their laces, so they don't come untied or snag anything when you're running

FF BLAST™ cushioning consists of cellulose nanofiber, a bio-based material applied as a component of this shoe's midsole

ASICSGRIP™ outsole

Helps runners experience better traction and durability on wet and dry trail surfaces

Vegan Friendly: For this product, no materials of animal origin are applied in the design and material selection stages, including: the yarns, glues or other adhesives applied in the product. *The product is not certified as vegan by an independent third party.

GEL-CONTEND™ 8

The GEL-CONTEND™ 8 running shoe provides good cushioning, support, and durability.

A jacquard mesh upper stretches with the foot's natural motion and creates a comfortable fit. Meanwhile, the synthetic stitching on the overlays helps create a more supportive foothold.

The midsole features GEL® technology and AMPLIFOAM™ cushioning. These technologies help increase durability while creating a softer feel underfoot.

FEATURES

Rearfoot GEL® technology cushioning improves impact absorption and creates a softer feeling at footstrike

Jacquard mesh upper improves airflow

OrthoLite™ sockliner offers excellent step-in comfort

Flex grooves in the outsole improve flexibility

Synthetic stitching on the overlays improves support

AMPLIFOAM™ cushioning helps improve durability

GUIDANCE LINE™ technology provides a more consistent stride

At least 20% of the shoe's main upper material is made with recycled materials to reduce waste and carbon emissions

JOLT™ 4

The new JOLT™ 4 shoe is designed to help you run or walk more comfortably. This shoe combines an AMPLIFOAM™ midsole with a solid rubber outsole for improved durability. Drawing inspiration from our longstanding GT series, this trainer offers classic styling and a great fit.

To make this edition even softer and move with your foot better on the run, we have engineered more flex grooves in the outsole. The upper is reinforced with stitch down overlays. Lastly, a more accommodating forefoot fit and a soft ORTHOLITE™ sockliner will help keep you stay comfortable throughout the day.

FEATURES

Engineered mesh upper helps improve breathability

Synthetic stitching on the overlays

AMPLIFOAM™ cushioning helps provide underfoot comfort

The sockliner is produced with the solution dyeing process that reduces water usage by approximately 33% and carbon emissions by approximately 45% compared to the conventional dyeing technology

KIDS

FOOTWEAR

GT-1000® 12 GS

The GT-1000® 12 GS (Grade School) shoe is designed to keep energized feet in motion. A LITETRUSST™ support system is placed in the midsole to increase stability as kids roll through their stride.

Meanwhile, E.V.A cushioning and GEL® technology create good shock absorption with a softer feel underfoot. Designed with a kid's-specific last, these shoes offer a more accommodating fit for growing feet.

Lastly, this style includes a solid rubber outsole, a medial wrap-up, and toe rubber stitching to improve durability.

FEATURES

- Breathable mesh upper
- GEL® technology
 - Improves impact absorption and creates a softer feeling at footstrike
- EVA cushioning
 - For improved underfoot comfort
- Kid's specific last
 - Creates a more accommodating fit
- The solid rubber outsole and medial wrap-up
 - improve the shoe's durability

GEL-NOOSA TRI™ 15

Drawing design cues from our flagship triathlon shoe, the GEL-NOOSA TRI™ 15 GS (Grade School) style channels the same energetic colour blocking, along with a technical design.

Featuring a mesh upper to increase airflow that helps keep feet cool, this shoe's vibrant colourway is combined with a series of bold "NOOSA" graphics.

Injected with improved comfort in the midsole, thanks to the injection E.V.A midsole and increased flexibility in the forefoot, this shoe also incorporates a toe stitched rubber outsole compound for improved durability.

FEATURES

Breathable mesh upper

GEL® technology

Improves impact absorption and creates a softer feeling at footstrike

Injection E.V.A midsole cushioning

Stitched toe and solid rubber outsole

Improve durability

Vegan Friendly: For this product, no materials of animal origin are applied in the design and material selection stages, including: the yarns, glues or other adhesives applied in the product. *The product is not certified as vegan by an independent third party.

GEL-EXCITE™ 10

The GEL-EXCITE™ 10 GS (Grade School) shoe is formed with energized design details.

This shoe offers high-quality breathability with fewer layers on the upper to help reduce irritation in the forefoot. Durable properties, like the toe rubber stitching and solid rubber outsole are designed to expand the shoe's lifespan.

CONTEND™ 8

The CONTEND™ 8 GS (Grade School) shoe is designed for young feet. Details like the toecap, toe rubber stitching, and solid rubber outsole increase durability and lengthen the shoe's lifespan.

The CONTEND™ 8 PS (Pre-School) shoe is designed for young feet. Each shoe in the collection features a hook and loop fastening system that helps keep feet stabilized. Details like the toecap, toe rubber stitching, and solid rubber outsole increase durability and lengthen the shoe's lifespan. Additionally, our CUB MATCH™ sockliner is printed with a tiger caricature that helps kids identify the right and left shoe.

FEATURES

- The toecap, toe rubber stitching, and solid rubber outsole improve durability
- At least 20% of the upper's material is made with recycled polyester
- The sockliner is produced with the solution dyeing process that reduces water usage by approximately 33% and carbon emissions by approximately 45% compared to the conventional dyeing technology
- Hook and loop fastening system
- CUB MATCH™ sockliner uses a tiger graphic to help kids recognize the left shoe from the right shoe
- The toecap, toe rubber stitching, and solid rubber outsole improve durability
- At least 20% of the upper's material is made with recycled polyester
- The sockliner is produced with the solution dyeing process that reduces water usage by approximately 33% and carbon emissions by approximately 45% compared to the conventional dyeing technology

UPPER

ASYMMETRIC MESH UPPER

The engineered mesh upper is rendered with a two-toned Colour palette that adds a head-turning visual interest element to the shoe's design.

ENGINEERED MESH

A technical mesh material that stretches in multiple directions, creating a snug, "sock-like" fit that provides a unique balance of comfort and support.

ENGINEERED STRETCH KNIT UPPER

A technical mesh that comfortably wraps your foot while supplying advanced ventilation.

GORE-TEX™

An upper membrane that helps prevent rain and snow from entering the shoe's exterior.

GUSSETED TONGUE

Wing fit system improves the midfoot fit and reduces tongue sliding.

JACQUARD MESH

A technical mesh that offers a supportive and comfortable foothold while keeping feet cool.

NEXKIN

Reduces durability against abrasions from rocks and roots.

REFLECTIVITY

Visibility for enhanced nighttime and early morning reflective brightness.

TONGUE WING CONSTRUCTION

Helps create a more supportive fit.

CUSHIONING

3D SPACE CONSTRUCTION™

Reduces weight and allows the runner to deform the midsole more (more cushioned feeling) with-out sacrificing durability. Gender Specific to accommodate gait differences.

AMPLIFOAM™ MIDSOLE

ASICS proprietary midsole material tuned for comfortable cushioning.

AMPLIFOAM™ PLUS

Cushioning improves durability creates a softer and more comfortable feel at footstrike.

FLYTEFOAM™ TECHNOLOGY

One of ASICS's lightest weight midsole foams provides continuous cushioning.

FLYTEFOAM™ BLAST PLUS TECHNOLOGY

A lightweight responsive foam formulation delivering a bouncy and energetic ride.

FF BLAST™ PLUS ECO

Midsole cushioning is made with approx. 20% bio-based content and helps provide cloud-like comfort.

FF BLAST™ TURBO

The most responsive material among ASICS lightweight cushion foam materials.

HYBRID GEL® TECHNOLOGY

To help create smoother underfoot transitions.

GENDER-SPECIFIC CUSHIONING

Softer density used in the midsole material of women's models to cater for the lighter body weight generally seen in females.

ORTHOLITE™ X-30

Sockliner provides soft step-in comfort.

ORTHOLITE™ X-55

Sockliner improves comfort.

PUREGEL™ TECHNOLOGY

GEL® Brand Technology that improves impact absorption and creates a softer feeling at foot strike.

PROTECTION

LITETRUSST™ TECHNOLOGY

Helps improve medial support and midfoot integrity by reducing pronation.

EXTERNAL HEEL CLUTCH

An external heel counter delivering better overall fit and targeted support.

DUOMAX® TECHNOLOGY

A dual-density midsole system positioned to enhance support and stability.

ADAPTIVE GUIDANCE TECHNOLOGY

Helps create a more stable ride on varying terrain.

GUIDANCE LINE TECHNOLOGY

Flex grooves that decouple the midsole for enhanced running efficiency and stride repeatability.

4D GUIDANCE SYSTEM™

A protection feature that helps create adaptive stability for a more balanced stride.

3D GUIDANCE SYSTEM™

Consists of wider base nets and an increased heel bevel and forefoot flare, helps provide advanced stability for a smoother stride.

OUTSOLE

ASICS LITE™ RUBBER

A lighter and stronger than standard outsole rubbers. Bio-based cellulose nanofiber is also partially used.

AHAR® TECHNOLOGY

ASICS High Abrasion Resistant rubber, is placed in critical areas of the outsole for exceptional durability.

AHARPLUS™ TECHNOLOGY

AHARPLUS™ provides the best durability within the AHAR® family, 3x more durable than standard rubber.

AHAR® LOW-HARDNESS

Outsole material helps improve resistance against wear.

FULL-GROUND CONTACT

An outsole design that creates a smoother and more efficient ride.

TRAMPOLINE-INSPIRED OUTSOLE

Designed to provide a more responsive bounce back.

EFFICIENCY / SPEED

GUIDESOLE™ TECHNOLOGY

The curved sole design of our GUIDESOLE™ technology reduces ankle flexion and provides a shock-absorbent landing zone to reduce loads on the foot.

PEBAX PROPULSION PLATE

Helps redirect your energy forward while creating a faster feel underfoot.

TPU PROPULSION PLATE

Helps redirect your energy forward while creating a faster feel underfoot.

TENNIS/MULTI-SPORT

DYNAWALL™ TECHNOLOGY

Reinforced wall providing increased stability during high intensity lateral movements.

DYNAWRAP™

Component in the lacing system improves stability during side-to-side motions.

PGUARD™ TECHNOLOGY

Reinforced compound around the toebox providing increased durability and protection.

TWISTRUSS™ TECHNOLOGY

Improves arch support and torsion stability with dual hardness system softer on lateral side.

2024 SALES POLICIES

SALES CONDITIONS

Sales are FOB point of departure (Sherbrooke). Payment terms are NET 30 days from shipping date unless otherwise communicated from the ACA credit department. Payment terms are subject to change without prior notice. Interest of 2% per month (24% per year) is charged on all overdue accounts. Discounts will be cancelled if payment terms are not respected. Deductions from payments will not be allowed unless authorized. Prices are subject to change without prior notice. Orders are invoiced at prices prevailing at time of shipment except for booking program. Booking and repeat discounts apply on back orders. Invoice includes Government Sales Tax (GST) and Provincial Sales Taxes where applicable or Harmonized Sales Tax where in effect.

MISSING MERCHANDISE

All merchandise should be verified upon its arrival. Missing or defective merchandise should be reported directly to the transporter. ACA is not responsible for loss and damage caused in transportation. Missing merchandise in a carton caused by shipping must be reported to ACA customer service within 10 days of receipt of merchandise. Claims must include the invoice number and bill of lading number. Claims will not be accepted after 10 days.

RETURN POLICY AND CLAIMS

ACA reserves the right to approve authentic returns due to manufacturing defects, late shipment or other legitimate reasons. All returns must be authorized in advance by ACA. Accounts must request authorization to return merchandise to ACA. Upon approval, ACA will provide a Return Authorization Number (RA#) to box. Merchandise returned without a number will be refused. Collect shipments of returned merchandise will not be accepted. Freight must be prepaid by the dealer.

NEW MERCHANDISE

ACA reserves the right to charge a 20 % restocking fee for all returns of non-defective merchandise. Collect shipments of returned merchandise will not be accepted. Freight must be prepaid by the dealer.

BOOKING ORDER

A booking order is an order which requests delivery 150 days or more after the order is received at ACA. The applicable discount is based on the Booking Program valid at the time the order is placed. To ensure complete delivery, the order must be submitted according to the deadline outlined on A.C.A's Booking Program. Minimum of 5 pairs per SKU per delivery. Each booking order must be signed by the client or authorized personnel and should include a purchase order number.

REPEAT ORDER

A repeat order is an order which requests delivery 7 days or more after the order is received at ACA. The applicable discount is based on the Discount Program valid at the time the order is placed. To ensure complete delivery, each order must be signed by authorized personnel and should include a purchase order number.

ORDER CANCELLATION

Order cancellations must be completed a minimum of 35 days prior to the requested shipping date for booking orders and 5 days prior to the shipping date for Repeat orders. ACA reserves the right to affect the customer discount as a result of cancellation.

ORDER ADJUSTMENTS

Any reduction of a booking order could result in booking discount to be cancelled. Size revision is not permitted unless authorized by ASICS CANADA CORP Sales Management. For further information, please contact your ASICS Sales Representative.

NO TRANSSHIPMENT

Retailer will sell ASICS products only to consumers who buy the products for their own needs and not for resale. The resale or transfer of products by Retailer to another Retailer or business is strictly prohibited, and in the event of such resale or transfer, ASICS may, in its absolute discretion upon written notice to Retailer, terminate account agreement or cancel all outstanding orders and withhold shipment of future orders of products to Retailer.

POLITIQUES DE VENTES 2024 COMMANDES

CONDITIONS DE VENTE

Toutes les ventes sont FOB à partir du point d'expédition. Les termes de paiement réguliers sont de NET 30 jours de la date d'expédition. Des frais mensuels de 2 % (24 % par année) sont ajoutés aux factures en souffrance. Un paiement en souffrance annule tout escompte. Aucune déduction de paiement ne sera acceptée à moins qu'un avis de crédit n'ait été émis à cet effet. Les prix peuvent changer sans préavis. Les marchandises sont facturées au prix courant à la date d'envoi, sauf pour les programmes de placement. L'escompte de placement et réapprovisionnement s'applique sur les articles en services (B/O). La taxe sur les produits et services (TPS) est incluse sur la facture. La taxe de vente provinciale est également incluse sur la facture en cas échéant. La taxe de vente harmonisée est appliquée dans les provinces où elle est en vigueur.

MARCHANDISE MANQUANTE

Les marchandises doivent être vérifiées et comptées dès leur arrivée chez le client. Tout article manquant ou endommagé doit être immédiatement noté sur le reçu de livraison et communiqué au transporteur. ACA ne se tient pas responsable des pertes ou des dommages causés au cours du transport. Tout article manquant dans une boîte fermée, causé par une erreur de triage de triage ou d'emballage, doit être signifié dans les 10 jours suivant la date de réception de la marchandise. Au-delà de cette période, aucune correction ne sera considérée. Toute réclamation doit être accompagnée des numéros de facturation et d'expédition.

POLITIQUE DE RETOURS & RÉCLAMATIONS

ACA se réserve la décision finale d'approbation de retours pour des produits défectueux, d'expéditions tardives ou toutes autres raisons légitimes. Le service à la clientèle d'ACA doit préalablement autoriser tout retour de marchandise selon la demande reçue par le détaillant. Après approbation, ACA émettra un numéro de retour (RA#) à inscrire clairement sur l'extérieur de la boîte à retourner. La marchandise retournée sans numéro de retour (RA#) ne sera pas acceptée. La marchandise doit être expédiée, port payé, par le détaillant.

MARCHANDISE NEUVE

ACA se réserve le droit de facturer 20 % de frais de remise en tablette pour un retour de marchandise non-défectueuse. La marchandise doit être expédiée, port payé, par le détaillant sous contrainte de n'être acceptée du transporteur.

COMMANDE DE PLACEMENT (BOOKING)

Une commande de placement doit être reçue par ACA un minimum de 150 jours avant la date de livraison requise. L'escompte sera calculé selon le programme de placement en vigueur au moment de la commande. Pour assurer une livraison complète, la commande doit être placée selon l'échéancier prévu par ACA. Minimum de 5 paires par modèle par livraison. Toute commande de placement doit être signée par le client ou son employé autorisé et contenir un numéro de bon de commande. Une seule commande de placement par mois est permise par client.

COMMANDE RÉGULIÈRE (REPEAT)

Une commande régulière doit être reçue par ACA un minimum de 7 jours ouvrables avant la date de livraison requise. Toute commande régulière doit contenir un numéro de bon de commande (P.O.) émis par le client.

ANNULATION DE COMMANDE

Toute annulation de commande doit survenir 5 jours précédant la date de livraison pour une commande régulière, et 35 jours précédant la date de livraison pour une commande de placement. ACA se réserve le droit d'affecter l'escompte du client sur l'ensemble de ses commandes suite à une annulation.

MODIFICATION DE COMMANDE

Toute réduction de commande de placement pourrait entraîner l'annulation de l'escompte de placement. La révision de taille n'est pas permise sans l'autorisation de la direction des ventes de Corporation ASICS CANADA. Pour plus de renseignements, svp contacter votre représentant des ventes ASICS.

TRANSBORDEMENT INTERDIT

Le détaillant vendra les produits ASICS uniquement aux consommateurs qui les achètent pour leurs propres besoins et non pour les revendre. La revente ou le transfert de produits d'un détaillant à un autre détaillant ou à une autre entreprise est strictement interdite. Dans l'éventualité d'une telle revente ou d'un tel transfert, ASICS peut, selon sa discrétion et sur préavis écrit au détaillant fautif, résilier la convention du compte ou annuler toutes les commandes futures et retenir l'expédition des commandes en cours.
