

ANODYNE

OUR MANIFESTO

It seems everywhere we go, no matter the occasion, we're yearning for a sense of relief. A comfort in where we stand. And for many of us, it's not just where we stand. It's how we stand and what's keeping us going. It's easy to forget (and neglect) what allows us to stay active and on to our next venture. After all, the root of what keeps us stable, upright, and moving, is our feet.

An anodyne, by definition, is something that brings you a sense of soothing and comfort. The comfort we desire (and in some cases need) is unique to each of us. We believe that you deserve shoes that will meet your comfort and style needs, and allow you to maintain an active, healthy and productive lifestyle.

SHOE TECHNOLOGY

STYLE

With Anodyne, you genuinely want to wear your shoes. The materials we've used and designers we've engaged have succeeded in bringing you a product that will effectively address both your aesthetic and comfort needs.

COMFORT

The combination of our lightweight outsole, padded collar and tongue, and seamless microfiber lining provides the highest level of comfort for sensitive feet. We've designed all styles to prevent irritation and provide pain relief.

PROTECTION

All of our shoe styles offer extra depth (5/16 inch) to accommodate feet of all shapes and sizes. Additionally, we incorporate a protective toe box, strong shank and rigid heel counter to help prevent any potential injury.

SIZING

We designed our shoes to fit fuller in the instep and toe box in order to add some additional room for your feet. If you're in between sizes, we suggest sizing down. For width conversions, see below.

MEN'S

- Medium: C, D
- Wide: E, EE
- Extra Wide: EEE, EEEE+

WOMEN'S

- Medium: B, C
- Wide: D, E
- Extra Wide: EE, EEE+

SLIPPER TECHNOLOGY

No matter the occasion, type of weather, or time of year, wearing comfortable, proper fitting footwear isn't an option - it's a necessity.

Even when indoors, it's incredibly important to have the appropriate shoes or slippers on. Being barefoot is not an option. Something as simple as stubbing your toe or stepping on a random something can potentially lead to a serious foot complication.

For all your indoor adventures, or lack thereof, our slippers are designed to support you every step of the way.

SOCKS

Meticulously designed with comfort in mind, our socks are the perfect combination of comfort, fit, and functionality.

When you wear our socks, you may not think about the ergonomics of the construction, the anatomical contours of the weave, or the functionality of the materials, but you'll know they are the best socks you've EVER worn.

We didn't invent the sock. We just perfected it.

Features:

- Anatomical left/right fit
- Supportive arch band
- Light gradient compression
- Seamless construction
- Impact absorbing padding
- Silver infused, ultra-soft microfiber nylon and high bulk acrylic blend

Available Sizes:

XS	M: 2-4	W: 3-5

DESCRIPTION

Custom Inserts and Partial Foot Toe Fillers

Hand-crafted by our lab staff and based on the exact contours of an individuals feet, our Custom Accommodative Inserts and Partial Foot Toe Fillers allow for maximum foot support, total contact and enhanced stabilization. Moreover, our custom inserts can be used to isolate and treat any particular irregularity that an individuals feet may have. We're capable of adding any sort of special accommodation to an individuals inserts, including the off-loading of certain areas, adding metatarsal pads, arch flanges, Morton's extensions, heel raises, etc.

SCANNER

3D

iPad 3D Camera
Anodyne App

Working with a team of industry experts, we've developed an ultraportable, easy-to-use, and affordable 3D scanner. With accuracy within +/- .5 mm, there is no longer a need for impression foam boxes or plaster casts. Orders can be sent and received within minutes, eliminating shipping charges and reducing lead times. Our scanning software is offered to all Anodyne suppliers free of charge (no fees or click charges).
