Naot Footwear Provides Ultimate and Original Comfort and Support

What makes us so special? Our Construction Technologies

Strobel Construction - an Old Italian form of manufacturing that is seldom used by Naot competitors. It can be a difficult and costly form of construction, however Naot has made it possible to bring this technique and all of its benefits to the Naot Brand. This manufacturing technique for shoes uses very little glue, minimizing the impact on the environment, and keeping it light in weight. The sock lining in the shoe is sewn down, allowing for great flexibility while the insole provides structure to the shoe.

Cemented Construction - also known as "stuck on construction" is used for lightweight and flexible shoes and the outsole is stuck to the upper by adhesive. The shoe is then flat lasted.

Stitch-down Construction - also known as Veldt, is a more economical method used to produce lightweight flexible soles for footwear. Here the upper is turned out (flanged) at the edge of the last and stitched to the outsole.

What makes us so special? It's our Signature Footbed

About The Naot Signature Footbed

The NAOT Footbed is specially engineered from natural materials – cork and latex – and wrapped in fine suede to absorb moisture and provide the ultimate comfort for your feet. It is constructed to anatomically support and align your feet, and thus your skeletal structure, to maximize your overall physical health. Here we have a close-up look at our Basic Footbed and a diagram which shows all of the ways in which the footbed is supporting your foot.

Cross Section of the Footbed - A Closer Look

From the diagram shown, you can see that the footbed is comprised of a combination of latex and cork, which gives the shoe or sandal the ultimate in comfort and support for your feet and body.

Latex Sponge Layer

This layer provides the padding and caressing softness which can be felt the instant you try them on.

Breathable Suede Covering

The NAOT Footbeds are wrapped in breathable fine suede, giving a luxurious feel to the bottom of your feet, but also providing absorption which keeps moisture away from your feet.

Cork Layer

This layer is the essential component, providing flexibility, durability, and shock absorption. This component is made of a unique, high quality blend of cork and latex (natural rubber), giving it flexibility and shock absorbing qualities, as well as long term durability.

Anatomy of Naot's Classic Footbed

Hallux Support

Enables natural hold by the big toe, prevents the foot from slipping forward, and improves the foot's grip on the shoe.

Elevated Footbed Centre

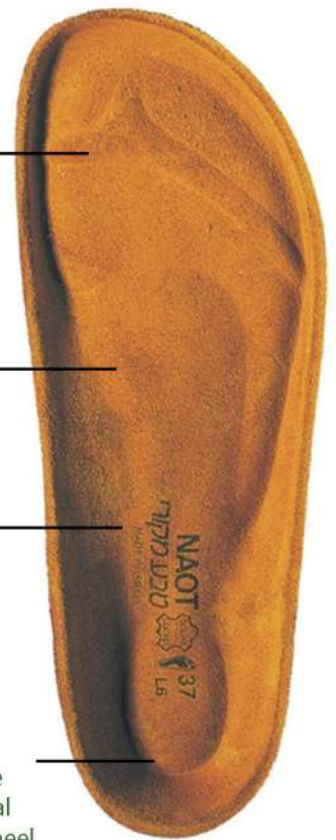

The elevated centre of the insole releases pressure on the joints of the central part of the foot.

Arch Support

Enables the weight of the body to be correctly distributed and reduces pressure generated by the spinal column and joints.

Deep Heel Indentation

Helps the body's balance and maintains the natural shape of the pad of the heel that protects the heel bone.

Cross-Section Of The Footbed

The Koru Story

Ten years ago, one of our main designers went to New Zealand and met the Māori Tribe. Their symbol for life is a baby fern which is imprinted on the bottom of every Koru sole in the collection. This is our attempt to bring the feeling of new life into each and every shoe and sandal.

Styles available in size 43 shown in italics.

Available in women's sizes 35 - 42 European / 4 - 11 North American; New colours for existing styles in **bold**; colour shown marked with (*).

Naot Art Fall Collection

The Art of Colouring

Naot's famous comfort shoes are hand painted and given a personal touch, which makes each pair one-of-a-kind...as unique as you are! The art of shoe painting is another one of the secrets of Naot's quality, design and originality. All the styles in the series were painted using an innovative technique which combines uniqueness and tradition in leather painting. Each and every shoe is painted individually, so that no shoe is identical to another and each pair is extraordinary! The personal touch, owning a product from the handmade process, enables one to enjoy Naot's perfect comfort without compromise.

Naot's Special Leathers & Nubucks

We have searched the finest tanneries in Italy to bring you the best in leathers, nubucks and suedes, and to make each and every Naot special. We have highlighted a few here. Note that swatches are only a representation of colour and texture.

Leathers

Nubucks & Suedes

Naot Shoe Care

We have worked hard to bring you the best in footwear, and now we have the ultimate shoe care products to compliment our Naot Brand. We have 5 new products to help you get the most out of your shoes and sandals:

Cork RX 900

This amazing product will protect, seal and waterproof your cork. Simply apply the liquid with the built in brush applicator, wipe away any excess, let it dry and you are good to go.

Leather Restore 902

This incredible balm will waterproof and condition your leathers, restoring them to a soft healthy look. Use before wearing to guard against the elements. Will darken lighter colours; always test in a small area first.

Suede Brush 904

Restores suede and nubuck by lifting and removing dirt and stains. Use on all the surfaces to loosen and remove dirt from all parts of your footwear.

Sandal Renew 901

Fast acting cleaner and odour relief for footbeds. Simply spray it on the suede covering, and rub it in with a cloth to restore the nap and freshen the suede.

Weather Resist 903

This water and stain repellent will protect nubucks, suedes and leathers. Spray it on from 6"-8" away or greater and let it dry. Apply a second coat for best results.

Naot Socks

Introducing women's and men's luxury socks...all of the styles are made with soft, light materials allowing your feet to breathe and stay cool all day long. Their special fabric blend wicks moisture, keeping you comfortable, dry and healthy. Toe seams are smooth, eliminating abrasion. The toes and heels are reinforced for durability and longer wear. Women's sizing is 4-10; men's sizing is 8-12.5. Each set is conveniently sold as a 3-pack.

SOCKL

This no-show silhouette pairs perfectly with Mary Janes and other low profile shoes. 95% Nylon, 5% Spandex.

3BB Black/Black/Black
16J Nude/Nude/Nude

SOCKW

Mid-calf sock. 75% Rayon from Bamboo, 15% Polyester, 10% Spandex.

3NN Black/Nude/Navy

SOCKM

Mid-calf sock. 75% Rayon from Bamboo, 15% Polyester, 10% Spandex.

3BB Black/Black/Black
3CB Navy/Charcoal/Brown

Naot Signature Footbeds are available for purchase separately, so that they can be renewed after time, for a fresh new feel. Here is a snapshot of all of our footbeds that are currently available for our full offering of footwear. From this overview, you can see, at a glance, some of the differences in widths for an easy and quick comparison.

When the members of a small collective farming community in Israel's Hula Valley began making shoes in a one-room workshop on Kibbutz Naot Mordechai, the idea that years later their shoes would be worn around the world was unimaginable. What started as the simple notion that one is happiest when they are comfortable, has evolved not only into a worldwide brand, but a way of life.

We call them shoes of peace...each pair is a product of collaboration. Crafted by hand and employing efforts of people from different cultures and backgrounds, Naot shoes are made with materials of the highest quality. Fine Italian leathers and our signature footbeds, combined with on-trend design, make for an unparalleled combination of comfort, quality, and fashion.

Discover Naot...the best kept secret in fashion and comfort!
