LIFE-CHANGING COMFORT

Developed more than 40 years ago by two experts in podiatric science, the naturally supportive, energizing foundation of signature superfeet shape is the I-never-knew-I-could-feel-this-good-secret under the feet of athletes, outdoor enthusiasts and physicians worldwide.

THREE KEY ELEMENTS TO SUPERFEET SHAPE

1. SCULPTED FOR COMFORT & PAIN RELIEF

Contoured silhouette cradles your heels and hugs your arches, providing relief for tired, aching feet.

2. NATURALLY SUPPORTIVE

Enhances the way your feet are intended to move, dispersing impact and decreasing stress and strain on your body

3. AN ENERGIZING FOUNDATION

Like the perfect mattress, extra supportive to keep your feet fresh from the moment you slip into your shoes until the day is done.

ME3D™

Fitstation
by HP

Ultra-light Aerospring™ Sync
foam keeps feet feeling
fresh and energized.

3D-printed SmartCap™,
customized in five
different zones for
ultimate individualization.

Deep heel cup
perfectly shaped
for personalized fit.

Beveled edges for
easy trimming.

Advanced MoistureWick™
delivers maximum breathability
and long-lasting odor control.

Superfeet ME3D, 3D-printed insoles are designed and engineered for one person: your customer. Using advanced Fitstation by HP technology, ME3D insoles are made with an individualized 3D-printed Superfeet shape to deliver unparalleled, truly personalized comfort. A no-inventory solution for your business; an insole flawlessly built for the way your customer moves.

AFTERSPORT™

RE-ENERGIZING FOOTWEAR
MADE TO ORDER

A man and a woman are running on a wooden pier or boardwalk. The man is wearing a bright yellow jacket, black pants, and a white cap with a logo. The woman is wearing a dark vest over a teal long-sleeved shirt, black leggings, and a dark cap. They are both smiling and appear to be in good shape. In the background, there is a body of water with a sailboat and some other people walking in the distance. The scene is lit with warm, golden light, suggesting it might be early morning or late afternoon. The overall mood is energetic and positive.

SHAPED FOR YOUR RUN

RUN

Superfeet RUN insoles personalize the fit and feel of running shoes like no other insoles can. Responsive and lightweight, our run-specific insoles reduce foot fatigue, alleviate pain and help your customers do more of what they love.

RUN

RUN COMFORT

Sizes: B-G | FL7862
